

Project Design Phase-I

Solution Architecture

Date	31 january 2026
Team ID	LTVIP2026TMIDS24132
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites In Tableau
Maximum Marks	4 Marks

Solution Architecture:

The Solution Architecture for “Heritage Treasures” is designed to bridge the gap between complex global heritage datasets and meaningful, interactive insights. The architecture ensures that UNESCO World Heritage data is systematically collected, processed, visualized, and delivered in a structured and scalable manner to support data-driven decision-making.

The architecture focuses on transforming raw, scattered heritage information into an accessible and user-friendly analytics platform using Tableau.
